AN IMMIGRANT'S STORY.

Came to America to Wed a Girl He Wanted to Care For.

V. Powderly, Commissioner General of Immigration; Commissioner General of Immigration; Commissioners J. J. S. Rodgers, of Boston; B. N. Stump, of Baltimore; John Thomas, of Quebec, and Thomas Fitchie, of New York, made a tour of inspection over the immigration quarters on Ellis Island yesterday. These officials held an informal meeting on the the service and the systems in use at various ports of entry. The out-of-town officials praised the condition of the quar-

An examination of his record showed that he had taken only 'first papers," and was not really a citi-

The story he told the Commissioner, about why he had left this country, was a pathetic one. Before he ever came here he had known a baby girl, and after he lived in Chicago for a long time he heard this girl had lost her mother, whereupon he decided to go back and marry her, so that she might have a home. Upon getting to Germany he concluded it would be better to have the wedding among friends over here, so he brought her back with him. They arrived on the Deutschland last week. He had enough money to allow him to land, but for the reason above stated the authorities decided to have him and the girl deported.

Commissioner Powderly, after he had heard the story, said he would do all he could to enable the man to stay here with his intended bride. Already a kind-hearted person, hearing of the case, had filed a notice of appeal from the decision of the local board. Meanwhile it was arranged that the couple could have their wedding in the immigration quarters. this girl had lost her mother, whereupon

zation During the Year. The Washington Traction Company will probably be reorganized some time during the present year, according to the president of the company, Hon. Allan L. Mc-Dermott, who is in Washington looking after the interests of the company. Mr. McDermott is also receiver of the company and a Representative in Congress from New Jersey.

disposition to believe that the corn out-ook was not so grave as some reports would have holders of stocks believe.

When seen this morning at his desk in the offices of the company at the end of East Capitol Street southeast, Mr. McDermott stated that the properties of the Washington Traction Company would in all probability be sold under fereclosure, and bought in by the large holders of

"The act of Congress of June, 1900, will then be taken advantage of," he said, "and the roads now controlled by the syndicate consolidated. The Washington dicate consolidated. The Washington Traction is now a stock and bond-owning company, and it will be able to conduct the affairs of the roads to better advantage after the consolidation has taken efat a loss; hence the necessity for fore closure. The funded debt of the company is in the neighborhood of \$13,500,000.

"There seems to be a necessity for fore-closure or an assessment," said Mr. Mc-Dermott, "The present stockholders will be invited to come in under the reorgani-zation. If they do not they will stand in the same position in which other individvals stand who have mortgaged their

the same position in which other individuals stand who have mortgaged their property and suffered foreclosure."

The last statement to Congress of the affairs of the Washington Traction Company showed that over and above the operating expenses, and without considering the interest on the bonded indebtedness, there was a surplus of about \$12,009. The interest on the bonds is about \$600,009. So that the net deficit was close to the latter amount. The refunding plan noted above would cut the interest in two, making it \$300,000 annually. This, with increased earnings accruing under the improvements in the operating system inaugurated and still being made by President McDermott, with the reduction of expenses effected by the same means, is expected to balance the income and expenses effected by the same means, is expected to balance the income and expenses effected by the washington Traction Company, particularly the Brightwood line, are understood to have been run at a loss for some time. The expensive improvements upon the Traction company's properties, however, have made its roads one of the finest systems in the country-and eventually, it is believed, it will be upon a paying basis.

Grand Old Men Some men seem defy old age. Th walk erect. The walk erect. Their eyes are bright. Their laugh is hearty. They are men of to-day—noi men of yesterday. They are also men who have kept themselves in good physical condition in the past. As we erow

physical condition in the past. As we grow older waste matter accumulates in the system. The body cannot throw it off without assistance. So, little by little the machinery of the body is clogged, vitality is lowered, and enjoyment of life ceases. Dr. Pierce's Golden Medical Discovery cannot make old men young of the ceases. Dr. Pierce's Golden Medical Discovery, cannot make old men young, but it does make them strong and healthy. By removing the waste accumulations, by increasing the blood supply, by strengthening the stomach and organs of digestion and nutrition, and thus increasing the assimilative and nutritive powers, "Golden Medical Discovery" makes grand old men assimilative and nutritive powers, "Golden Medical Discovery" makes grand old men.

"I suffered for six years with constipation and indigestion, during which time I employed several physicians, but they could not reach my case," writes Mr. G. Popplewell, of Eureka Springs, Carroll Co. Ark. "I felt that there was no help for me, could not retain food on my stomach; had vertigo and would fall helpless to the floor. I commenced taking Dr. Pierce's Golden Medical Discovery and little 'Pellets.' I am now in good health for one of my age—60 years. I owe it all to Dr. Pierce's medicines."
